Brand Presence

Parin is a National brand having its presence in 18 states with a display area of 2,00,000sqft. & Warehouse of 1,25,000sqft. More than 900 Business Partners, Dealers and Distributors are connected to us which we consider as our biggest strength. We are committed to deliver world class quality products at Best Price over the years.

Our Strengths

Company's biggest strength is our Major products are Made in India with state-of-the-art manufacturing setup with modern machines & technology. We have our own Team of expert designers who design the product and we get it manufactured under our supervision. Quality for our products is being checked and verified by our Quality Inspector in various stages with zero tolerance for errors which is the core competency to ensure the continued good quality. We sustain brand values and product excellence.

Quality Assurance

Through active mentoring we create a culture where staff have the skills and are empowered to take responsibility for the results of their actions which contributes to the Quality of our products and success of the company... Through management review of our business management system we aim to continually improve Quality of processes, products and services... With our Core Values on constant up gradation, we periodically review our Quality Policy & Quality Standards... Company always emphasis on Quality with latest designs and excellent pre and post sales services to our business associates and valuable customer through which we have boosted our sales volume.

FROM THE DESK OF CMD

India is amongst the most thickly populated country's globally, with a large mass of floating population moving from one point to another thereby, creating a huge scope for managing in transit seating arrangements. Be it at a small dispensary, a hospital, a cinema house, a state run transport service, railway station or an airport, the need for public seating persists & grows as the movement from point to point increases.

Indian markets, have so far been dependant majorly on imported public seating systems to meet our customer needs which neither the purchaser nor the user have been satisfied with in quality and finishing standards.

"Parin" with it's in depth experience in the furniture industry has now come up with a complete basket of Public Seating Systems which it can cater to from a 1 Seater to a 5 seater lay out. The "Made In India" product will speak all basic parameters of elegance, comfortable seating, easy assembly but the top line feature will be product strength with longer life span.

With my more than 35 years of furniture industry exposure, I can confidently see "Parin" as a commendable brand with a product basket which will continue to match the expectation graph of our customer's across India and beyond.
